Online Admission

Academic Edition Modules

In this section the administrator can do the complete admission of a student. This will be done once as the student gets admitted in the college. The admission form will feed in the system once by the administrator and the same data will be forwarded as soon as the student will go in higher class. Once the student is admitted in the college the information will be updated in the entire respective department.

Fees Management System

Fees submission: Once the cashier accepts the cash from the student the related fees head will be updated and the parents will get the SMS on their mobile. This receipt will be sent to parents and students' email ID. The account administrator can add the head as per the university norms and the respective fees amount will be updated on each transaction.

Fees confirmation report:

- SMS confirmation for payment received
- Receipt will be sent to parents' email ID
- Print out of receipt for official records

Accounts Report

- Head wise fees collection report
- Monthly Fee Receipt
- Admission Fee Receipt
- Fee Due semester wise
- Fee Collection Report
- Day book
- Monthly Book
- Defaulter list

Online Attendance Module

This module is the daily attendance sheet that a faculty takes regularly. This Module is authorized for faculty and HOD.

- Features:**
- Monthly /date wise Attendance Statement report
 - Parents can see child attendance from parents panel
 - Students can view the attendance report from student panel
 - Faculty can easily take the attendance as per subject wise
 - A single click makes a student absent. It generates reports of every student's attendance reviewable at any time.
 - Concern faculty can update the student's details from faculty Panel
 - Students can view their practical marks from student panel
 - Parents can view their ward performance from parents Panel
- Principal/HOD can track on the student's performance on their department

Internal Assessment

Faculties can update the students progressive/internal/practical's test marks of their respective subjects. All registered students can view the progressive Test & term –work marks from their respective panels. Records of every examination conducted for each semester is maintained which makes referring past data very easy. This module helps in maintaining computerized record of exams conducted in collegial as well as it display/print the result. Graphical representation of student result is also available for the reference for the parents/management staff.

Time Table & Workload

Administrator will allocate the college lecture timing and the HOD of each department will feed the lecture period of each faculty of there department. So that HOD can summarize the lecture timing of each faculty.

- Reports can be generated by subject wise/semester wise/ Teacher wise or Student wise.

E Learning

Online Assignment

As the faculty /HOD gives semester wise assignment regularly. this panel will help to assign there assignment subject wise that they teach and Student can able to view all the assignment that has been assign by there Faculty.

- Faculty can easily upload the assignments with assignments details from faculty panel.
- Faculty can easily update or delete the assignment as per his requirement.
- Students can easily download the assignment (written date) from students panel.

Study Material : Faculty can add the study materials, questionnaire with their concern subjects.

Question Paper : previous year question paper scan copy can also be uploaded from faculty panels.

Online Course Materials

Faculties can upload the materials like

- Lesson Plan
- Course material
- Sample paper/previous year paper
- Topic based articles
- Presentation
- Students can viewed and can download the given course materials

Online Circular

Principal and HOD can easily convey their message to their teaching /non teaching staff from this module. Even if staff is not in the college she can be in touch with all the notices that have been circulated in college by Principal or by HOD.

Messaging :

Any staff can send the messaging to any one at department level (one to one). SMS messaging : All the staff can send the SMS to individuals or bulk levels.

In bulk SMS, the message can send to all HOD, all faculties or department faculties or all students, department students or all users.

Students messaging to staff :

With this panel students can interact with their respective Faculties/HOD/Principals.

Students can complain, or share the problems with concern staff.

News & Events

This Module is used to add news and events that held in College. So that student can be in touch with all the activities going in College. This will be like a notice board happens in college. Adding news & event details are allowed to HOD's, Faculty's and administrator.

Messaging can be delivered by

- E-MAIL
- SMS
- ON RESPECTIVE PANEL

Training & Placement

The Training & Placement department can able to add all the details of placement that has been conducted in college. This panel will help the student to give the complete details of company requirement coming for campus interview. This section will also keep track of the entire students that have been placed directly from college, through campus interview. Also from this online application student will easily be informed, about there selection in interview. In this section Department head can also create the company account, from where company can login and can view the student resume. This will make the Placement faster, as company will directly be able to view the student bio-data according to there requirement.

The Training & Placement department will give pre intimations of training that has been organized in college. So that student can get informed about those training.

Resume creator

In this section Final year student can able to create there resume. So that all the registered /campus interview companies can view there resume for the interview purpose.

Complaint Management

Complaint Management Module provides the college a perspective view of various types of complaints and their frequency for any specific complaint line. Apart from capturing and analyzing complaints it also extensively gives reports regarding the actions taken to resolve those complaints. The internal process of complaint management ensures a timely resolution of every complaint launched.

Failure at any level of the process is reported directly to the top level Management.

Report rich module gives an eagle's eye to the top management to closely watch.

HR solutions

The complete payroll solution make this complicated function look much easier. The software is user-friendly, with user-definable preferences like Salary Heads and Salary structures, huge library of periodical statutory reports required under PF & ESI, TDS Law, Advance Register, Leave Register, flexible reporting and many more.

Flexible salary definition with formula/ slab etc.

Integration with Attendance Monitoring Systems.
